

XM Radio's Instant Traffic and Weather is most valuable to people like me who drive in large metropolitan areas and need to know the status of major roadways. This does not in any manner threaten local broadcast outlets because the bulk of local information, namely news, sports, etc., is still accessed from local broadcast channels. Traffic and weather are a very small percentage of local broadcast content. We hear the about the need for "less govenment" - in this case such a position is most appropriate...
